HAZARDOUS WASTE INDEX (DHEC 1965)

**DO NOT WRITE ON THE FORMS IN THIS BOOK.
PHOTOCOPY AS MANY COPIES OF EACH FORM
FROM THE BOOK AS NEEDED. COMPLETE YOUR
REPORT ON THESE PHOTOCPIED FORMS IN INK (OR
TYPE) AND SIGN CERTIFICATION BY HAND IN INK.
USE THESE AS YOUR COMPLETED ORIGINALS. KEEP
A COPY OF YOUR COMPLETED ORIGINALS IN YOUR
FILES AND SEND THE COMPLETED ORIGINALS TO
SCDHEC. PLEASE DO NOT COMPLETE FORMS THAT
DO NOT APPLY TO YOUR COMPANY AND DO NOT
SUBMIT BLANK FORMS.

Instructions

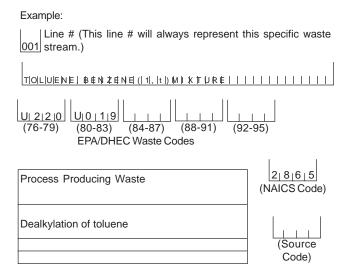

This form is an index of all hazardous wastes that your company generates. A separate line entry should be made for each separate waste stream. However, one waste stream may be a mixture of chemicals as long as that is how they are generated. If two chemicals are generated separately then there should be two separate line entries for those wastes. It is very important for you to keep track of the waste index line numbers you have assigned each waste stream, since this waste index line number is used throughout the quarterly reports to refer to that waste stream. Once a waste index line number is assigned to a waste stream it can never be assigned to another waste stream. (Example: If you assign toluene as waste index line number 001, then you can never assign waste index line number 001 to any other waste stream). This allows SCDHEC to establish a consistent record of all waste streams generated on your site. When you generate a new waste stream, this form is to be completed and submitted with the rest of the quarterly report forms. PLEASE DO NOT REPEAT OLD WASTE STREAM INFORMATION.

- I. Enter your EPA ID#. (Example: SCD934126421)
 Enter your company name in the space provided as it appears on your label on the form DHEC 1962. Enter the correct date in the space provided.
- **IL** Enter in the spaces provided a waste index line number beginning with 001, for You can find this code on the internet (http://www.naics.com).

Enter the 4-digit Source Code that best describes how the waste index line number originated. The Source Codes can be found in the back of this booklet.

NOTE: For waste streams that represent a mixture of several different wastes, enter in the first waste number (code) the primary waste number (code) that best describes the waste. This would mean that if 75% of the mixture was F017 and 25% F013, then F017 would be listed first and F013 second. In the event you have a mixture consisting of six or more waste numbers (codes), then enter the first five (5) which

would best describe the waste. The waste index line number you assign a waste will always remain the same, so in the example below for this particular generator, waste index line number 001 will always represent this toluene and benzene mixture. THE WASTE INDEX LINE NUMBER WILL NEVER CHANGE. WASTE STREAMS WILL NEVER BE DELETED FROM YOUR WASTE INDEX. IF YOU NO LONGER GENERATE, TREAT, STORE OR DISPOSE OF A PARTICULAR WASTE STREAM YOU WILL NEVER AGAIN REFER TO THAT WASTE INDEX LINE NUMBER IN YOUR QUARTERLY REPORTS. HOWEVER, THE WASTE STREAM WILL ALWAYS REMAIN ON YOUR INDEX.
